

HIGHLY PLEASED WITH SILVER PEAK

HON. W. H. NEBEKER NOTES MUCH IMPROVEMENT IN THAT CAMP.

Hon. W. P. O'Meara and Hon. W. H. Nebeker of Salt Lake returned yesterday from Silver Peak, and the visitor from the Mormon city expressed himself as well pleased with the outlook for the camp.

"It is two years since I have been in this country," said he, "and I am exceedingly gratified to note the improvement in the various camps of southern Nevada. Tonopah is looking particularly good, and the improvements have kept pace with the solidity of her mines. When I was here they had just struck ore in the Red Top at Goldfield. They were then making great claims for the future of the property, and it is good to find that the developments have surpassed their fondest expectations."

"Tonopah and Goldfield have both been proven, and so has Silver Peak. The latter camp, in its after development, has shown that the ore bodies are persistent, and in their extent are fulfilling the hopes of the people who invested their money there. I look for that to be one of the greatest camps in Nevada."

WALKED EIGHTEEN MILES FOR RELIEF

C. H. BOTTSFORD SPRAINS HIS ANKLE ON THE DESERT.

Hot Creek is becoming famous as a resort. The latest patient to accept the hospitality of Senator Williams and his family is C. H. Bottsford, the well known mining man, the man who sold the Combination mine. Mr. Bottsford and Mr. Frank Peterson went out to view a prospect. They had got a tip from Goldfield, from McCormick and others with whom they are associated, that there was something great about twenty miles from Hot Creek and so they went.

When they reached Hot Creek, it was a case of a burro ride for twenty miles, and it was a toss-up to see which of the gentlemen should take the ride. Mr. Peterson finally got the ride. In his absence Mr. Bottsford determined to take a ride up to Tybo. Eighteen miles from Hot Creek the crank shaft broke, and the passengers started to walk to Tybo to get help. There are two canyons on the way to Tybo and Mr. Bottsford and the chauffeur got into the wrong one. Then the former sprained his ankle, and it was case of walking eighteen miles back to Hot Creek.

Mr. Bottsford arrived at the ranch in considerable pain, at 9 o'clock that night, to find his friend Peterson back from the mine, and worried to death about his absence. Mr. Peterson went to Tybo on Monday, and got a machine which brought him into Tonopah. He telephoned to Mr. McCormick and the latter last night sent out his auto to Hot Creek. The mine that the gentlemen went out to examine turned out to be a myth.

MAHER'S CASE RESTS WITH JURY

CONTENTION WAS THAT MAHER SLEW IN SELF-DEFENSE.

The state rested its case yesterday afternoon in the trial of J. H. Maher for the murder of T. J. Malone, and Mr. Metson, counsel for the defense, made his opening statement. Mr. Metson's contention is that Maher killed Malone in self defense. The case of the defense will be put in today, and it is more than possible that Maher's life will be in the hands of the jury tomorrow.

LEAVES FOR THE CHLORIDE DISTRICT

PARTY WILL PUT IN WINTER IN THE NEW CAMP TO THE NORTH.

Captain O. Henry leaves this morning for the Chloride district, where he is going to put in the winter looking for the ledge of a new and valuable discovery of float. With Al Revert, Captain Henry has taken a one-half interest in the property, the other half being owned by S. K. Bradford, J. E. Kendall, Jack Sloan and W. C. Russell.

"There are eight claims on the property," said Captain Henry, "and there are from fifty to 100 tons of rich float among which are big boulders, from one of which were broken 5500 pounds that averaged \$426 a ton. One assay went as high as \$682 a ton. There are any number of boulders which will weigh two tons, all of which are rich in ore."

"The wash carrying the float comes down the mountain side for a distance of three-quarters of a mile, and there is a big ledge there somewhere and we are going to find it before the winter is over. We will go from here in the morning to Bellehelen, where my camp is located. I am going to move the camp out, a distance of fifty miles north, and stay there for the winter."

There is quite a romance about the Chloride property, and the deal which has just been made shows what persistency and sticktoativeness means, and will bring. About six weeks ago Sloan and Kendall came here to tell about their discovery, and brought with them some of the ore which went very high. They returned to their camp with one man who turned down the proposition. Then they went to S. K. Bradford, who was sufficiently interested to go to the ground with his team of mules. He spent eight or ten days there examining the property, and brought a big chunk of rock, which looked like the real quill.

With W. C. Russell, he interested Malcolm Macdonald, and the public knows what happened. There was a spill on the return trip, and Mr. Macdonald has forgotten the mine and is nursing his arm, which was dislocated in the spill. Nothing daunted, Mr. Bradford went to Goldfield, and there got another party, and off they went in another automobile. This party also reached the mine, and coming back hit a new rock, and there was another spill. There was a mining engineer along, who stroked his leggings, and said that he would like to take it up in the spring. Mr. Bradford wasn't waiting until spring, and he came back to Tonopah, and got Messrs. Revert and Henry. They got down in the flat just below town, and the chauffeur let go the wheel to turn up his coat collar. By the time he got his coat collar turned up the machine had turned up an acre of sage brush, and had hit a rock that nothing could have missed, and there was another spill. The party came back to town and got another machine and made a fresh start. They went to the float this time, and got back without scratching the paint on Jim Forman's automobile.

"Now, these people will take it," said Mr. Bradford to his associates, and they did. But at that there were two or three other parties on Mr. Bradford's string, for he is a man who when he once starts for anything has never been known to quit. While looking for the ledge, they are going to mine and ship the float. There are plenty of wood and water in the neighborhood, and the spot will make an ideal camp.

LOS ANGELES IS LOOKING THIS WAY

PEOPLE ARE ANXIOUS TO BUY NEVADA SECURITIES.

W. J. Stoneham, who has been away for the past few months, was one of the passengers on the train which arrived from Los Angeles last night. Mr. Stoneham, during his absence has visited Ohio, Michigan, Iowa, Indiana, New York, New Jersey, Pennsylvania and Missouri.

"The financial situation is rapidly improving," said Mr. Stoneham, "and it will continue to improve steadily. The sentiment from New York, through the middle west, and to Los Angeles, is that now is the time to buy stocks, the good stocks of Nevada. They think well of the mines, but there will be no large buying until the financial conditions are better, and the labor situation is settled."

"Los Angeles is just awakening to the possibilities of mining, and the people are anxious to get into the market. There is plenty of money in Los Angeles, and real estate speculation is dead, with falling prices. It is not only that there are so many millionaires, but it is the enormous number of people there who have from \$2000 to \$5000 in the banks, lying idle. I look for much better times from now on. There will be a moderate amount of trading in January, not much before, for the reason that it will take that long for the money market to straighten out, and then the holidays always bring a slackening up in trading."

WILL HAVE GOOD NEWS TO IMPART

The Tonopah-Manhattan Promotion committee will meet this evening in its new rooms in the State Bank and Trust Building, and it is expected that there will be a fine attendance. Some of the members have been out of town and have good news to impart, and there are some new and important happenings in the northern camp to be recorded.

Mrs. Munn's Sale.

Mrs. Munn has opened her annual clearing sale and is going to offer some of the best bargains that were ever offered in Tonopah. She is putting out a fine line of fall and winter goods, including cloaks, suits, waists and furs which are simply going at a sacrifice. It goes without saying that the Shop of Swellom will be a famous resort for the ladies while the sale is on.

Effective Dec. 2, train due to arrive at Goldfield 10:40 a. m., will have dining car up to point at which they meet the train departing from Goldfield at 6:35 a. m. BUTLER THEATRE HAS CAUGHT ON

PEOPLE APPRECIATE CLEVER LITTLE MOVING PICTURE SHOW.

The Butler theater has caught on, for the people have begun to appreciate the clever little show of moving pictures. For the past two nights the house has been crowded, and the audiences have gone away very well satisfied. It is getting to be quite the thing to drop in there and spend an hour looking at the pictures and listening to the songs and the music. There is an especially good show on this week, and one does not want to miss it.

TYBO MINE IS PUMPED DRY

SUCCESSFUL TERMINATION OF A GREAT UNDERTAKING.

General Manager E. J. Collins of the Nevada Smelter and Mines corporation returned yesterday from Tybo, bringing the good news that the mine has been at last pumped out and that a big body of ore has been encountered on the 300 level. The average of the ore is \$120, the values being in gold, silver and lead.

The Tybo mine is one of the rich old mines of this state, but had been lying idle for more than twenty years, when the present owners took hold of it. The mine during all that time was filled with water, and although others attempted to pump it out they were never successful.
